**Modelmaker position**

Cobe is looking for a modelmaker to join our workshop in Copenhagen, Denmark. You will work closely with the Workshop Manager and your primary task will be producing models for our projects – both quick sketch models and high quality presentation models. You will be an important part of continuously developing Cobe's workshop and the ideal candidate will have strong model making skills as well as a creative, co-operative mindset.

Candidates with the following attributes will be taken into consideration:

- You are passionate about model making.
- You have experience in making models using laser cutters, hot wire cutters, spray booths and hand skills.
- You have good experience with 3D modeling (preferably in Rhino) to prepare files for production, including prepping files to be 3D printed.
- You have a good grasp of architectural model design and how to create structurally strong and aesthetically pleasing models.

This is a full-time position, and we are primarily interested in candidates with a qualification in modelmaking or another education with similar/transferable skills.

Besides this we are looking for a profile that can say "yes" to most of the following:

- You are highly motivated and have a strong sense of initiative.
- You are confident enough to lead a small team when required.
- You have excellent attention to detail and take pride in your work.
- You are capable of working within tight deadlines.
- You are creative and enjoy finding new ways to make things and experiment with new materials.

We offer a job in a creative environment, with the possibility of both working in inspiring teams and immersing yourself in specific tasks. This is a great opportunity for someone with a good understanding of model making who wants to gain experience. Salary will be calculated based on level of experience.

**Application**

Applications are treated confidentially and handled continuously. Interviews will be held on an ongoing basis. We are looking forward to receiving your application, CV and portfolio included. Only applications showing evidence of physical model making will be considered. Please send the application to [job@cobe.dk](mailto:job@cobe.dk) with the subject "Modelmaker Position". The deadline is August 31 2021. For more information about the position, please contact Cobe's Workshop Manager, Lauren Catterson, at [laca@cobe.dk](mailto:laca@cobe.dk).
